The Apollo 11 moon landing was an event that drew the attention of the entire nation, an achievement that astounded the world, and you can see what led up to those first steps onto the surface of the moon at the Armstrong Air & Space Museum in Wapakoneta, Ohio.

Named in honor of Wapakoneta native Neil Armstrong, first person to set foot on the moon, the museum chronicles Ohio's contributions to space flight. Among the items on exhibit are an F5D Skylancer

airplane, the Gemini VIII spacecraft, Apollo 11 artifacts, a working model of the Curiosity rover, and a moon rock. Visitors can also view artifacts from Armstrong's life and see how a young man from small town America went on to become the first man to walk on the moon and a reluctant celebrity.

In the Museum's Astro Theater, multimedia presentations of the sights and sounds of space unfold against a starry background, while the Infinity Room will deceive your senses. Kids and adults can enjoy the sense of weightlessness and freedom of movement in the

FORT RECOVERY

On a small triangle of land along the Wabash River, two significant battles (1791, 1794) forever changed the course of this country's history. The first battle, "The Battle of The Wabash," resulted in the greatest loss ever suffered by the United States Army and the greatest victory ever for the Native Americans! Nine hundred of this young nation's 1200 soldiers were killed or mortally wounded at the hands of nearly 1500 warriors under the command of Miami Chief, Little Turtle and Shawnee Chief Blue Jacket.

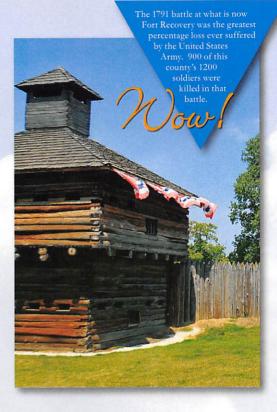

Three years later, "The Battle of Fort Recovery" took place on the same triangle along the Wabash. However, with the protection of the fort, nearly 250 soldiers were able to resist a relentless two day attack by a confederation of 2500 warriors. After the defeat, Little Turtle said he would never again fight the American Army, saying, "To do so would be suicide to my people." This battle was an important step ultimately leading to the signing of the Treaty of Greenville and opening up the lands of the Northwest Territory for American settlement. The success of the US Legion at Fort Recovery and Fallen Timbers proved that the United States had a viable army,

was in control of its territories and insured the survival of this new nation.

Visitors to present day Fort Recovery see history come alive through the reconstructed fort with the twostory blockhouses and connecting stockade, along with two log cabins with exhibits of early colonial furnishings and tools. The adjacent museum houses accurately detailed figures of Wayne's Legion. Also

of interest are the Native American history, models and artifacts, all of which tell the stories of those proud people. Fort Recovery Monument Park features an obelisk monument that stands over 100 feet high in honor of the soldiers who died in both battles, and whose remains are buried under that monument.

Examples of the collection include a bicycle outfitted for the U.S. Army infantry in the 1890s and the famed bicycle from the film Pee-Wee's Big Adventure. You will also see a monocycle on display that was used in the closing ceremonies of the 2008 Beijing Summer Olympics. Check out the Bowden fiberglass bicycles, a collection of wooden bicycles, many highwheelers, and historic racing bicycles. The museum also has a model of an 1816 German-designed bicycle. Sting-rays from the 1960s and balloon-tired bicycles from the 1950s fill the historical interior with nostalgia. GRAND LAKE ST. MARYS

A FUN FAMILY DESTINATION

...for More Than 100 Years

Families have long enjoyed vacationing at beautiful Grand Lake St. Marys. Ohio's largest inland lake has been a destination for boating, swimming, fishing and picnicking for many generations.

Appreciate the History

Constructed by man, without power equipment, Grand Lake St. Marys served as a feeder lake for the Miami-Erie Canal. At its completion in 1845, it was the largest man made lake in the world and is still the largest hand dug lake. Workers received 30 cents a day and a jigger of whiskey for their labors. In the early 1890's the lake became the site of the first off-shore oil drilling platform. By 1915 there were more than 150 oil wells in the lake. Other past business ventures on the lake included ice harvesting and commercial fisheries. It was also the location of a large amusement park, dance halls and church camps.

Enjoy the Great Outdoors

Today Grand Lake St. Marys State Park consists of nearly 600 acres of prime lakeside parkland. You will find trails and walkways,

great access to fishing, swimming beaches, picnic amenities, excellent bird watching, public boat launch areas and a large, well maintained state campground.

You'll also find:

Year round fishing, with many tournaments held on the lake each

year • Sport fishing species include bass, crappie, perch, bluegill, catfish & walleye • Three pair of nesting American bald eagles • Over 10 miles of local nature hiking & biking trails • Excellent goose and duck hunting • A state fish hatchery • Snowmobiling • Waterfowl refuge and wetlands nature observation decks and trails • Handicap access fishing piers and boat docks • Kayaking clubs • Ice Fishing • Four bait & tackle shops around the lake • Great for Bird Watching - with a wide variety of waterfowl and migratory birds.

LIGHTHOUSES

You will be in awe ..

as you view these stunning lighthouses on Grand Lake St. Marys. Although it is an oddity for an inland lake to possess a lighthouse, Grand Lake St. Marys is proud to boast of three such structures.

Northwood Lighthouse

This 1923 Eddystone Lighhouse is a monument to the original English Channel Beacon. In the early days it operated under a government license from April to November. Located on the north shore between Celina and St. Marys. Viewing from lake only. (National Registry of Historic Places)

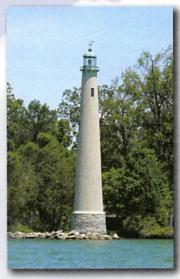

Rotary Lighthouse

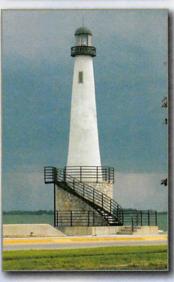

US Route 127 and Lake Shore Drive, Celina, OH

This forty foot working light-house welcomes visitors to Celina each evening. Built in 1986 by the Celina Rotary Club, this structure has a wrought iron observation deck encircling it for those who wish a "grander" view of the lake.

Behm's Lighthouse

This beautiful stately structure was dedicated on April 19, 2003 in memory of Stanley Mike Grimm. The operating marine light can be seen up to seven miles. It can be viewed on the south shore of the lake at 5444 Behm Rd. at Behm's Landing.

MIAMI & ERIE CANAL

Step Back in Time along the Miami and Erie Canal

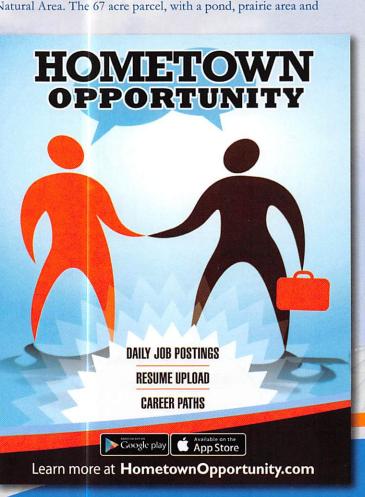

The Miami & Erie Canal was significant in the development of Ohio as settlers found an easier way into the wilderness and commerce found a cheaper route to markets.

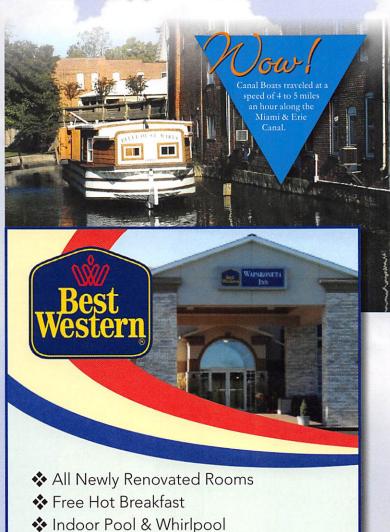

Beginning in 1825, it took 20 years to construct the 249 miles of canal from Cincinnati to Toledo and cost more than \$8 million. Irish, French and German immigrants, who labored for 30 cents a day plus a jigger of whiskey, manually moved trees, rocks and soil to create the waterway through the wilderness. The peak year for canal use was 1851 with over 400 boats moving freight and passengers. As railroad use increased, commercial use of the canal diminished. The final blow was the Great Flood of 1913 which destroyed portions of the waterway.

A great place to begin local exploration of the canal is the Miami & Erie Canal Visitors Center at Lock One in New Bremen. The center offers numerous exhibits and displays and the lock has been restored to its 1910 appearance with wooden gates and a spillway bypass. While in New Bremen be sure to appreciate the many restored canal era buildings.

Just north of the village along the canal is the Keunning-Dicke Natural Area. The 67 acre parcel, with a pond, prairie area and woodlands, provides a great spot for primitive camping, picnicking or just enjoying nature.

In St. Marys, Memorial Park is home to the Belle of St. Marys, a replica canal boat and also features a covered bridge, clock tower and a lovely brick walkway along the canal. While in St. Marys check out Grand Lake St. Marys, Ohio's largest inland lake. This 13500 acre manmade body of water originally served as a source of water for the canal.

THE LAND OF THE CROSS-TIPPED CHURCHES

This scenic byway consists of sixty buildings representing the German Catholic settlements of southern Auglaize and Mercer Counties, as well as portions of northern Darke and Shelby Counties, which were placed on the National Register of Historic Places. Consisting of churches, schools, rectories and convents, this grouping is symbolic of the cultural and historical uniqueness of the region.

Today, these structures remindus of the hard work and dedication of these early settlers as they built the Miami-Erie Canal and forged a new life on the area's rich and productive farmland. Trips through the rural countryside follow the quaint churches with their cross tipped "spires to heaven" and include stops at the focal points of the region: the former convent at Maria Stein; St. Augustine Church - the original Mother Church of the area at Minster and St. Charles Center, the magnificent and impressive former seminary at Carthagena.

Our waxworms are the ideal food for your pet, backyard animals or wild birds. They also serve as an excellent fish bait. In fact, our main business is growing waxworms for the recreational fishing industry.

High in protein, calcium, potassium and fat, snackworms are just what your backyard birds, squirrels and ducks need to thrive during the winter months when food is scarce. Snackworms are even a great pet treat.
